TARIFF FORMAT

- A. Page Numbering Page numbers appear in the upper right hand corner of the page. Pages are numbered sequentially. From time to time new pages may be added to the tariff. When a new page is added between existing pages, a decimal is added to the preceding page number. For example, a new page added between Pages 3 and 4 would be numbered 3.1.
- B. Page Revisions Numbers Revision numbers also appear in the upper-right corner of the Page. These numbers are used to determine the most current page version on file with the Commission. For example, 4th Revised Page 4, cancels 3rd Revised page 4.
- C. Paragraph Numbering Sequence There are various levels of paragraph coding. Each level of coding is subservient to its next higher level of coding. For Example:

2. 2.1.

2.1.1

2.1.1.A

2.1.1.A.1

2.1.1.A.1.(a)

D. Check Sheet – When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc., remains the same, just revised revisions levels on some sheets). The tariff user should refer to the latest Check Sheet to find out if a particular page is the most current on file with the Commission.

EXPLANATION OF TERMS

ADSL - The terms "ADSL" is Asymmetrical Digital Subscriber Line (ADSL) Service. It is a technology that allows high speed data to be sent over existing copper facilities and supports data rates from 256 Kbps to 1.5 Mbps when receiving data (downstream rate) and from 64 Kbps to 768 Kbps when sending data (upstream rate).

ACCESS LINE – An arrangement which connects the customers location to a switching center or point of presence.

AGENCY - For 911 or E911 service, the government agency(ies) designated as having responsibility for the control and staffing of the emergency report center.

ATTENDANT - An operator of PBX console or telephone switchboard.

AUTHORIZED USER - A person, corporation or other entity who is authorized by the Company's customer to utilize service provided by the Company to the customer. The customer is responsible for all charges incurred by an Authorized User.

AUTOMATIC LOCATION IDENTIFICATION ("ALI") - The name and address associated with the calling party's telephone number (identified by ANI as defined below) is forwarded to the PSAP for display. Additional telephones with the same number as the calling party's (secondary locations, off premises, etc.) will be identified with the address of the telephone number at the main location.

AUTOMATIC NUMBER IDENTIFICATION ("ANI") – A system whereby the calling party's telephone number is identified and sent forward with the call record for routing and billing purposes. E911 Service makes use of this system.

CALL TERMINATION - The point in time when the exchange network facility allocated to a specific call is released for reuse by the network.

CENTRAL OFFICE - An operating office of the Company where connections are made between telephone exchange lines.

CARRIER - Whenever used in this tariff, "Carrier" or Company" refers to American Telephone Company, LLC, unless otherwise specified or clearly indicated by the context.

COMMISSION –Kentucky Public Service Commission

COMMISSION OF KENTUCKY

1.1 USE OF FACILITIES AND SERVICE

1.1.1 Obligation of the Company

In furnishing facilities and service, the Company does not undertake to transmit messages, but furnishes the use of its facilities to its customers for communications. The Company undertakes to furnish communications services pursuant to the terms of this tariff in connection with one-way and/or two-way information transmission between points within the State of Kentucky.

- A. The Company reserves the right to limit or to allocate the use of existing facilities, or of additional facilities offered by the Company, when necessary because of lack of facilities, or due to some other cause beyond the Company's control.
- B. The furnishing of service under this tariff is subject to the availability on a continuing basis of all the necessary facilities and is limited to the capacity of the Company's facilities as well as facilities the Company may obtain from other carriers to furnish service from time to time as required at the sole discretion of the Company.

The Company's obligation to furnish facilities and service is dependent upon its ability (a) to secure and retain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary circuits and equipment; (b) to secure and retain, without unreasonable expense, suitable space for its plant and facilities in the building where service is or will be provided to the customer; or (c) to secure reimbursement of all costs where the owner or operator of a building demands relocation or rearrangement of plant and facilities used in providing service therein.

1.1 USE OF FACILITIES AND SERVICE (Cont'd)

1.1.5 Directory Errors

In absence of gross negligence or willful misconduct and except for the allowances stated below, no liability for damages arising from errors or mistakes in or omissions of the directory listings, or errors or mistakes in or omissions of listings obtainable from the directory assistance operator, including errors in the reporting thereof, shall attach to the Company. An allowance for errors or mistakes in or omissions of published directory listings or for errors or mistakes in or omissions of listings obtainable from the directory assistance operator shall be given as follows:

- 1. Free Listings: For free or no-charge published directory listings, credit shall be given at the rate of two times the monthly tariff rate for an additional or charge listing for each individual, auxiliary or party line, PBX trunk or Centrex attendant loop affected, for the life of the directory or the charge period during which the error, mistake or omission occurs.
- 2. Charge Listings: For additional or charge published directory listings, credit shall be given at the monthly tariff rate for each such listing for the life of the directory or the charge period during which the error, mistake or omission occurs.
- 3. Operator Records: For free or charge listings obtainable from the records used by the directory assistance operator, upon notifications to the Company of the error, mistake or omission in such records by the subscriber, the Company shall be allowed a period of three business days to make a correction. If the corrections is not made in that time, credit shall be given at a the rate of 2/30ths of the basic monthly rate for the line or lines in question for each day thereafter that the records remain uncorrected. (Where Centrex attendant loops are involved, credit shall be given at the rate of 2/30ths of the basic monthly rate for PBX trunks)

1.1.5 Directory Errors

- 4. Credit Limitations: The total amount of the credit provided for the preceding paragraphs 1, 2, and 3 shall not exceed, on a monthly basis, the total of the charges for each charges listing plus the basic monthly rate, as specified in paragraph 3, for the line or lines in question.
- 5. Definitions: As used in paragraphs 1, 2, 3, and 4 above, the terms "error," "mistake" or "omission" shall refer to a discrepancy in the directory listing or directory assistance records which the Company has failed to correct and where the error affects the ability to locate a particular subscriber's correct telephone number. The terms shall refer to addresses only to the extent that an error, mistake or omission of an address places the subscriber on an incorrect street or in an incorrect community.
- 6. Notice: Such allowances or credits as specified in paragraphs 1, 2, and 3 above, shall be given upon notice to the Company by the subscriber that such error, mistake or omission has occurred; provided, however, that when it is administratively feasible for the Company to have knowledge of such error, mistake or omission, that Company shall give credit without the requirement of notification by the subscribers.

1.2 MINIMUM PERIOD OF SERVICE

The minimum period of service is one month except as otherwise provided in this Tariff. The customer must pay the regular tariffed rate for the service they subscribe to for the minimum period of service. If a customer disconnects service before the end of the minimum service period, that customer is responsible for paying the regular rates for the remainder of the minimum service period. When the service is moved within the same building, to another building on the same premises, or to a different premises entirely, the period of service at each location is accumulated to calculate if the customer has met the minimum period of service obligation.

If the service is terminated before the end of the minimum period of service as a result of condemnation of property, damage to property requiring the premises to be abandoned, or by the death of the customer, the customer is not obligated to pay for service for the remainder of the minimum period.

If service is switched over to a new customer at the same premises after the first month's service, the minimum period of service requirements are assigned to the new customer if the new customer agrees in writing to accept them. For facilities not taken over by the new customer, the original customer is responsible for the remaining payment for the minimum service period in accordance with the terms under which the service was originally furnished.

1.3 PAYMENT FOR SERVICE

1.3.1 Responsibility for All Charges

Any applicant for facilities or service may be required to sign an application form requesting the Company to furnish the facilities or service in accordance with the rates, charges, rules and regulations from time to time in force and effect. The customer is responsible for all local and toll calls originating from the customer's premises and for all calls charged to the customer's line where any person answering the customer's line agrees to accept such charge.

1.3.2 Deposits

Subject to special provisions as may be set forth below and in other Sections of this Tariff, any applicant or customer whose financial responsibility is not established to the satisfaction of the Company may be required, as a condition of new service, restoration of discontinued service, or subsequent service, to pay a deposit sum up to an amount equal to the total of the estimated local service and intraLATA toll charges for up to two months for the facilities and service.

The fact that a deposit has been made shall in no way relieve the applicant or customer from complying with the Tariff regulations for the prompt payment of bills on presentations. Each applicant from whom a deposit is collected will be given a certificate of deposit and circular accordance with the Rules and Regulations of the Commission pertaining to customer deposits.

1.6 TELEPHONE SURCHARGES/TAXES (Cont'd)

1.6.2 Surcharge for State Gross Income and Gross Earnings Taxes

A monthly surcharge to recover the additional expense related to the State Gross Income and Gross Earnings Taxes applies to the recurring and nonrecurring rates and charges for all intrastate service except returned check charges, late payment charges and rates for local coin calls. Any changes to these rates will be filed on 15 days' notice to customer and as directed by the Commission. Whenever the state levies a new tax on the Company's gross revenues, repeals such a tax, or changes the rate of such a tax, the Commission may approve new surcharge factors, and the Company will file a revised schedule as directed or approved by the Commission.

1.6.3 Village or Municipal Surcharge on Local Utility Gross Revenue Taxes

In certain cities and villages a municipal surcharge related to the Local Utility Gross Revenue Taxes applies to the recurring and nonrecurring rates and charges for all intrastate service except returned check charges, late payment charges and rates for local coin calls.

The surcharge statement shall be filed at least fifteen business days before the effective date. The effective date of the statement shall not be prior to the effective date of the surcharge and no sooner than the date when the tax enactment is filed with the Secretary of State. The surcharge shall be applicable to bills subject to the tax enactment that are rendered on or after the effective date of the statement. If the tax enactment either ceases to be effective or is modified so as to reduce the tax rate, the surcharge will be changed accordingly within 5 business days.

Introductions, cancellation, or modification of a surcharge will be effective on the date of the customer's first bill rendered after the effective date of the change.

1.9 ADDITIONAL PROVISIONS APPLICABLE TO BUSINESS CUSTOMERS (Cont'd)

1.9.2 Telephone Number Changes

When a business customer requests a telephone number change, the referral period for the disconnected number is 90 days.

The Company reserves all rights to the telephone numbers assigned to any customer. The customer may order a Customized Number where facilities permit for an additional charge as specified in this tariff.

When service in an existing location is continued for a new customer, the existing telephone number may be retained by the new customer only if the former customer consents in writing, and if all charges against the account are paid or assumed by the new customer.

1.9.3 Deposits

Deposits will be returned to a business customer upon cancellation of service or after one year, whichever event occurs first, unless the customer is delinquent in payment, in which case the Company will continue to retain the deposit until the delinquency is satisfied. If a service is involuntarily discontinued, the deposit is applied against the final bill, and any balance is returned to the customer.

1.9.4 Dishonored Checks

If a business customer who has received a notice of discontinuance pays the bill with a check that is subsequently dishonored, the account remains unpaid and the Company is not required to issue any additional notice before disconnecting service.

1.10 ADDITIONAL PROVISIONS APPLICABLE TO RESIDENTIAL CUSTOMERS

1.10.1 Application of Rates

Residential rates as described in this Tariff apply to service furnished in private homes or apartments (including all parts of the customer's domestic establishment) for domestic use. Residential rates also apply in college fraternity of sorority houses, convents and monasteries, and to the clergy for domestic use in residential quarters.

Residential rates do not apply to service in residential locations if the listing indicates a business or profession. Residential rates do not apply to service furnished in residential locations if there is an extension line from the residential location to a business location unless the extension line is limited to incoming calls.

The use of residential service and facilities is restricted to the customer, members of the customer's domestic establishment, and joint users.

1.10.2 Telephone Number Changes

When a residential customer requests a telephone number change, the referral period for the disconnected number is 90 days.

The Company reserves all rights to any telephone number assigned to a customer for local service. The customer may order a Customized Number where facilities permit for an additional charge as specified in this Tariff.

When service in an existing location is continued for a new customer, the existing number may be retained by the new customer only if the former customer consents in writing, and if all charges against the account are paid or assumed by the new customer.

1.10 ADDITIONAL PROVISIONS APPLICABLE TO RESIDENTIAL CUSTOMERS (Cont'd)

1.10.3 Deposits

A. General

Except as provided in (B) following, the Company may require a deposit, as described in this Tariff, from a residential customer who is applying for service if the customer: 1) has had service terminated for nonpayment once within the preceding six-month period, or 2) is delinquent in payment. A customer is delinquent in payment if that customer has received two consecutive telephone bills without making payment of at least one-half the total arrears due on the due date of the second bill. A customer is not considered delinquent, however, if an amount in dispute is not paid before the dispute is resolved.

An existing customer is an applicant for service who was a customer of the Company within twelve months of making the request, provided that prior service was not terminated for nonpayment, unless service is requested within 10 days of such termination for nonpayment. Applicants for residential service and existing residential customers are permitted to pay deposits in installments over a period not to exceed 6 months.

A new customer is an applicant for service who has not been a customer of the Company within twelve months of making the request for service. A new customer shall not be required to post a security deposit as a condition of receiving telephone calls.

A seasonal customer is an individual who applies for and receives telephone service periodically each year, intermittently during the year of at other regular intervals scheduled at the time of the application. A seasonal customer may be required to post a deposit.

B. Customers Exempt from Deposits

- A new customer or existing customer who is 62 years of age or older shall be exempt from any deposit requirement unless such person's telephone service was terminated for nonpayment during the preceding six months. Proof of age will be required from any person claiming exemption from deposit requirements because of age. If the proof requested by the Company is not received within 30 days from the date service is connected, or 30 days from the date that verification of age is requested from an existing customer, the Company may suspend or terminate service unless the customer pays the required deposit. Any new customer or existing customer 62 years of age or older shall be permitted to pay a deposit in installments over a period not to exceed 12 months.
- 2) The Company shall not require any person it knows to be a recipient of public assistance, supplemental security income or additional state payments to post a deposit.

C. Recent Payment History

A customer who has a recent payment history (within the preceding twelve months) with the Company are entitled to service without payment of a deposit unless their records indicate that they are delinquent in payment or have had service terminated for nonpayment. A customer who still owes money to the Company for residential service on a prior account shall be offered a deferred payment plan provided that the customer had service for three months and was not terminated for nonpayment during that period.

New deposits from a residential Customer are reviewed after the first 3 monthly bills have been rendered; if too much has been taken, the excess is returned. The entire deposit is returned to a residential customer after 1 year, unless the customer is delinquent in payment, in which case the Company may continue to retain the deposit until the delinquency is satisfied. If the service is discontinued, the deposit is applied against the final bill, and any balance is returned to the customer.

1.10.4 Installment Billing For Nonrecurring Charges

A residential customer may elect to pay service connection and other nonrecurring charges associated with a service order in monthly installments for up to a 12-month period. When installment billing is requested, all nonrecurring charges associated with a given service order will be included in the calculation of the monthly installment.

1.10.5 Adjusted Payment Schedule

A customer on fixed income (e.g., pension and public assistance) shall be offered the opportunity to pay his or her bills on a reasonable schedule that is adjusted for periodic receipt of income.

1.10.6 Suspension or Termination for Nonpayment

- A. Suspension/termination notices may not be issued until at least 26 days after the date of the bill. Bills must be mailed to the customer no later than 6 business days after the date of the bill.
- B. After issuing the written notification in accordance with the terms of this Tariff, at least one attempt shall be made during non-working hours to contact the residential customer by telephone before the scheduled date of suspension/termination.
- C. Suspension/termination may occur only between the hours of 8 a.m. and 4 p.m. Monday through Thursday, provided that such day or the following day is not a public holiday or a day on which the main office is closed. In addition, service may not be disconnected during the period of December 23 through the 26 and December 30 through January 2.
- D. Telephone service may be suspended or terminated for nonpayment of the undisputed portion of a disputed bill or deposit if the customer does not pay the undisputed portion after being asked to do so. Suspended or terminated residential service shall be reconnected within 24 hours following payment or within 24 hours of the end of circumstances beyond the Company's control which delay the reconnection. The Commission may direct that service be reconnected in less than 24 hours.

1.10 ADDITIONAL PROVISIONS APPLICABLE TO RESIDENTIAL CUSTOMERS (Cont'd)

1.10.7 Deferred Payment Agreements

Service will not be suspended or terminated unless the customer has been advised that a deferred payment plan can be arranged. An existing residential customer with three or more months service and for whom service has not been terminated for nonpayment is eligible for Deferred Payment Arrangements (DPA). Final notice of suspension/termination will advise the customer of deferred payment arrangements and will include, in bold print, a notice that assistance in reaching an agreement may be obtained from the Commission. The DPS notice will be mailed no less than six days before termination of total service.

A DPA will be for a period agreed to by both the customer and the Company.

If the Company believes that the customer has the resources to pay the bill, it shall notify both the customer and the Commission in writing of the reasons for its belief. The Commission shall make the final determination as to whether a DPA should be provided. A customer with medical emergencies and a customer who is elderly, blind or disabled shall be exempt from such eligibility criteria.

1.10 ADDITIONAL PROVISIONS APPLICABLE TO RESIDENTIAL CUSTOMERS (Cont'd)

1.10.8 Dishonored Checks

When a check received from a residential customer is dishonored, the company shall make two attempts, one outside of normal business hours, to contact the customer within 24 hours. The customer shall be given an additional 24 hours to pay before suspension/termination. The additional notice will be given provided that the customer has not submitted a dishonored check within the past 12 months.

1.10.9 Suspension or Termination – Abandonment

Suspension/termination of residential service for abandonment or unauthorized use may occur only after the Company makes a reasonable attempt to determine occupancy or authorized use, or the customer takes reasonable steps to prevent unauthorized use. A notice must be sent to the customer five days before such suspension or termination. The notification requirement is waived when previous mailings are returned by the Post Office or the company is advised that a new customer has moved into the location.

1.10.10 Suspension or Termination – Medical Emergencies

In the event of a medical emergency, an additional 30 days will be allowed for a residential customer before suspension or termination. A medical certificate must be supplied. The medical emergency status may be extended beyond 30 days upon submission of specified documentation. During the emergency, the customer will be able to defer payment of monthly charges up to an amount specified by the Commission until the emergency ceases or it is determined that the customer has the ability to pay the charges. Charges in any month in excess of the amount specified are due by due date of the bill.

- A. the customer is known to or identified to the Company as being blind or disabled;
- B. the customer is 62 years of age or older, and all other residents of the customer's household are: under 18 years of age, over 62 years of age, blind or disabled.

In cases where service has been suspended or terminated and the Company subsequently learns that the customer is entitled to the Protection established herein, the Company shall within 24 hours of such notification restore service for an additional 20 days and make a diligent effort to contact in person an adult resident at the customer's premises for the purpose of devising a payment plan.

1.10.12 Backbilling for Residential Customers

A. The Company shall not charge a residential customer for previously unbilled service or adjust upward a bill previously rendered when the period for the unbilled service or billing adjustment is more than twenty-four months prior to the mailing of the bill or upward adjustment unless the conduct of the customer caused or contributed to the failure of the Company to render timely accurate billing. Unless the customer causes the later billing, the Company shall explain the reason for the late billing and shall advise the customer that suspension/termination of service is not permitted for charges billed in excess of six months after the service was provided. The customer will be given the opportunity to pay the charges under an installment plan on a schedule equal in time to the length of the backbilling period.

1.12 ALLOWANCES FOR INTERRUPTIONS IN SERVICE

Interruptions in service, which are not due to the negligence of, or non-compliance with the provisions of this Tariff by the Customer, or the operation or malfunction of the facilities, power, or equipment provided by the Customer, will be credited to the Customer as set forth below for the part of the service that the interruption affects. A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this Tariff.

1.12.1 Credit for Interruptions

- A. An interruption period begins when the Customer reports a service, facility, or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility, or circuit is operative. If the Customer reports a service, facility, or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.
- B. For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on pro rate basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.

1.12.1 Credit for Interruptions (Cont'd)

- C. A credit allowance will be given, upon request of the customer to the business office, for interruptions of 30 minutes or more. Credit allowances will be calculated as follows.
 - 1) if interruption continues for less then 24 hours:
 - 1/30th of the monthly rate if it is the first interruption in the a. same billing period.
 - 2/30ths of the monthly rate if there was a previous b. interruption of at least 24 hours in the same billing period.
 - 2) if interruption continues for more than 24 hours:
 - if caused by storm, fire, flood, or other condition out of a. Company's control, 1/30th of the monthly rate for each 24 hours of interruption.
 - for other interruption, 1/30 of the monthly rate for the first 24 b. hours and 2/30ths of such rate for each additional 24 hours (or fraction thereof); however, if service is interrupted for over 24 hours, more than once in the same billing period, the 2/30ths allowance applied to the first 24 hours of the second and subsequent interruptions.

Two or more interruptions of 15 minutes or more during any one 24-hour period shall be considered as one interruption.

1.12.1 Credit for Interruptions (Cont'd)

D. Credit to Customer

Credits shall be applied on the statement issued to the customer for the next monthly billing cycle following the violation or following the discovery of the violation and shall be identified as a "Service Quality Credit" or "S.Q. Credit".

E. "Interruption" Defined

For the purpose of applying this provision the word "interruption" shall mean the inability to complete calls either incoming or outgoing or both due to equipment malfunction or human errors. "Interruption" does not include and no allowance shall be given for service difficulties such as slow dial tone, circuits busy or other network and/or switching capacity shortages. Nor shall the interruption allowance apply where service is interrupted by the negligence or willful act of the subscriber or where the Company, pursuant to the terms of the Tariff, suspects or terminates service because of nonpayment of bills due to the company, unlawful or improper use of the facilities or service, or any other reason covered by the Tariff. No allowance shall be made for interruptions due to electric power failure where, by the provisions of this Tariff, the subscriber is responsible for providing electric power. Allowance for interruptions or measured rate service will not affect the subscriber's local call allowance during a given billing period.

1.13 AUTOMATIC NUMBER IDENTIFICATION

1.13.1 Regulations

The Company will provide Automatic Number Identification (ANI) associated with an intrastate service, by tariff, to any entity (ANI recipient), only under the following terms and conditions:

- A. The ANI recipient or its designated billing agent may use or transmit ANI information to third parties for billing and collection, routing, screening, ensuring network performance, and completion of a telephone subscriber's call or transaction, or for performing a service directly related to the telephone subscriber's original call or transaction, or for performing a service directly related to the telephone subscriber's original call or transaction.
- B. The ANI recipient may offer to any telephone subscriber with whom the ANI recipient has an established customer relationship, a product or service that is directly related to products or service previously purchased by the telephone subscriber for the ANI recipient.
- C. The ANI recipient or its designated billing agent is prohibited from utilizing ANI information to establish marketing lists or to conduct outgoing marketing calls, except as permitted by the preceding paragraph, unless the ANI recipient obtains the prior written consent of the telephone subscriber permitting the use of ANI information for such purposes. The foregoing provisions notwithstanding, no ANI recipient or its designated billing agent may utilize ANI information if prohibited elsewhere by law.

1.15 SCHOOLS AND LIBRARIES DISCOUNT PROGRAM

1.15.1 General

The Schools and Libraries Discount Program permits eligible schools (public and private, grades Kindergarten through 12) and libraries to purchase the Company services offered in this Tariff at a discounter rate, in accordance with the Rules adopted by the Federal Communications Commission (FCC) in its Universal Service Order 97-157, issued May 8, 1997. Adopting Discounts for Services for Schools and Libraries, issued June 25, 1997. The FCC's Rules are codified at 47 Code of Federal Regulation (C.F.R.) 54.500 et. seq.

As indicated in the Rules, the discounts will be between 20 and 90 percent of the pre-discount price, which is the price of services to schools and libraries prior to application of a discount. The level of discount will be based on an eligible school or library's level of economic disadvantage and by its location in either an urban or rural area. A school's level of economic disadvantage will be determined by the percentage of its students eligible for participation in the national school lunch program, and a library's level of economic disadvantage will be calculated on the basis of school lunch eligibility in the public school district in which the library is located. A non-public school may use either eligibility for the national school lunch program or other federally approved alternative measures to determine its level of economic disadvantage. To be eligible for the discount, schools and libraries will be required to comply with the terms and conditions set forth in the Rules. Discounts are available only to the extent that they are funded by the federal universal service fund. Schools and libraries may aggregate demand with other eligible entities to create a consortium.

SECTION 3- INTRALATA TOLL USAGE AND MILEAGE CHARGES

3.1 General

3.1.1 Description

IntraLATA toll service is furnished for communication between telephones in different local calling areas within a particular LATA in accordance with the regulations and schedules of charges specified in this tariff. The toll service charges specified in this SECTION are in payment for all service furnished between the calling and called telephone, except as otherwise provided in this Tariff.

IntraLATA toll calling included the following types of calls: direct dialed, calling card, collect, 3rd number billed, special toll billing, requests to notify of time and charges, person to person calling and other station-to-station calls.

3.1.2 Classes of Calls

Service is offered as two classes: station-to-station calling and person-to-person calling.

- A. Station-to-Station Service is that service where the person originating the call dials the telephone number desired or gives the Company operator the telephone number of the desired telephone station or system.
- B. Person-to-Person Service is that service where the person originating the call specifies to the Company operator a particular person to be reached, a particular mobile unit to be reached, or a particular station, department or office to be reached. The call remains a person-to-person call when, after the telephone, mobile telephone, or PBX system has been reached and while the connection remains established, the person originating the call requests or agrees to talk to any person other than the person specified, or to any other agreed upon alternate.

SECTION 3 - INTRALATA TOLL USAGE AND MILEAGE CHARGES (Cont'd)

3.2 TIMING OF CALLS

3.2.1 General

Unless otherwise indicated, all calls are timed in one minute increments and all calls which are fractions of a minute are rounded up to the next whole minute.

3.2.2 Station-to-Station

For station-to-station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.

3.2.3 Person-to-Person

For person-to-person calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agreed alternate.

3.2.3 End of Call Timing

Call timing ends when the calling station "hangs up," thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released with by automatic time equipment in the telephone network or by the Company operator.

3.2.5 Multiple Time Periods

Calls originating in one time period and terminating in another will be billed the rates in effect at the beginning of each minute.

3.2.6 Local Time

All times refer to local time.

SECTION 3 – <u>INTRALATA TOLL USAGE AND MILEAGE CHARGES</u> (Cont'd)

3.3 TIME PERIODS DEFINED

Time periods are defined within the applicable rate sections.

3.4 REGULATIONS AND COMPUTATION OF MILEAGE

Calls for which rates are mileage sensitive are rates on the airline distance between the originating rate center and the terminating rate center.

3.4.1 Originating Rate Center

A customer's primary local exchange number included an NXX code that is associated with a specific rate center. The originating point of all calls charged to that customer's account shall be the location of the customer's rate center.

3.4.2 Terminating Rate Center

The terminating point for all calls shall be the location of the local rate center associated with the called number.

3.4.3 Calculation of Mileage

Usage charges for all mileage sensitive products are based on the airline distance between serving wire centers associated with the originating and terminating points of the call. The serving wire centers of a call are determined by the area codes and exchanges of the origination and destination points.

The distance between any two rate centers is determined as follows:

SECTION 3 - INTRALATA TOLL USAGE AND MILEAGE CHARGES (Cont'd)

3.4 REGULATIONS AND COMPUTATION OF MILEAGE (Cont'd)

3.4.3 Calculation of Mileage (Cont'd)

Airline mileage, where mileage is the basis for rating calls, is obtained by using the "V" and "H" coordinates assigned to each rate center and contained in <u>NECA FCC</u> <u>Tariff No. 4</u> or successor tariffs. To determine the airline distance between any two locations, proceed as follows:

- a. Obtain the "V" and "H" coordinates for each location. The "V" coordinate is the first four digits in the "VH" column. The "H" coordinate is the next four digits.
- b. Obtain the difference between the "V" coordinates of each of the locations. Obtain the difference between the "H" coordinates.
- c. Square each difference obtained in step b., above.
- d. Add the square of the "V" difference and the "H" difference obtained in step c., above.
- e. Divide the sum of the square by 10. Round to the next higher whole number if any fraction is obtained.
- f. Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

Formula:

$$\begin{array}{c|c}
2 & & & \\
\hline
 & (V_1 - V_2)^2 + (H_1 - H_2)^2 \\

SECTION 3 – <u>INTRALATA TOLL USAGE AND MILEAGE CHARGES</u> (Cont'd)

3.5 CALL CHARGES

Rates are based on the duration of the call as measured according to the Section above, time of day rate period of the call and the airline mileage between points of the call. In addition, where live or automated operator assistance is required for call completion or billing, a per call service charge applies.

Charges for all classes of calls may be to the calling station, to the called station when the called party agrees to accept the charges, to an authorized telephone number which is not the called station or the calling station (3rd number billing), or to an authorized calling card.

3.5.1 Usage Charges:

- A. Business Two-Point Message Toll Service
 - See Rate schedule in Section 10 of this tariff.
- B. Residence Two-Point Message Toll Service

See Rate schedule in Section 10 of this tariff.

SECTION 4 – <u>SUPPLEMENTAL SERVICES</u>

4.1 CUSTOM CALLING SERVICE

4.1.1 General

The features in this section are made available on an individual basis or as part of multiple features packages. All features are provided subject to availability; features may not be available with all classes of service. Transmission levels may not be sufficient in all cases.

4.1.2 Description of Features

A. Three Way Conference, Consultation, Transfer

The Three Way Calling feature allows a customer to add a third party to an existing two-way call and from a three-way call. The call must have been originated from outside the station group and terminate to a station within the station group. The Call Hold feature allows a customer to put any in-progress call on hold by flashing the switchhook and dialing a code. This frees the line to allow the customer to make an outgoing call to another number. Only one call per line can be on hold at a time. The third party cannot be added to the original call.

B. Call Forwarding

Call Forwarding, when activated, redirects attempted terminating calls to another customer-specific line. The customer may have to activate and deactivate the forwarding function and specify the desired terminating telephone number during each activation procedure. Call originating ability is not affected by Call Forwarding.

The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the customer with the Call Forwarding is billed for the forwarded leg of the call.

<u>Call Forwarding – Busy</u> automatically reroutes an incoming call to a customer predesignated number when the called number is busy.

<u>Call Forwarding – Don't Answer</u> automatically reroutes an incoming call to a customer predesignated number when the called number does not answer within the number of rings programmed by the Company.

<u>Call Forwarding – Variable</u> allows the customer to choose to reroute the incoming calls to another specified telephone number. The customer must activate and deactivate this feature.

C. Call Waiting/Cancel Call Waiting

Call Waiting provides a tone signal to indicate to a customer already engaged in a telephone call that a second caller is attempting to dial in. it will also permit the customer to place the first call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting (CCW) allows a Call Waiting (CW) customer to disable CW for the duration of an outgoing telephone call. CCW is activated (i.e., CW is disabled) by dialing a special code prior to placing a call, and is automatically deactivated when the customer disconnects from the call.

D. Distinctive Ringing

This feature enables a user to determine the source of an incoming call from a distinctive ring. The user is provided with up to two additional telephone numbers.

E. Multiline Hunting

This feature is a line hunting arrangement that provides sequential search of available numbers within a multiline group. Circular and uniform hunting can also be selected.

Hunt group charges apply to sequential, circular and uniform hunting and queuing with announcement per queue slot.

F. Speed Calling

This feature allows a user to dial selected numbers using one or two digits. Up to eight numbers (single digit, or thirty numbers with two digits) can be selected.

G. Blocking Service or a telephonic block can only be removed pursuant to a written request by the customer of record, or the customer of record providing the correct password over the telephone, or by request made in person by such customer. The customer of record can provide a personal password to use to remove blocking service at the time blocking service is established.

B. Connection Charges (Nonrecurring Charges)

Connection charges may apply when a customer requests connection to one or more customer calling features. Orders requested for the same customer account made at the same time for the same premises will be considered one request. These charges may not apply if the features are ordered at the same time as other work for the same customer account at the same premises.

See Rate Schedule in Section 10 of this tariff.

4.2 CLASS SERVICES

4.2.1 General

The features in this section are made available on an individual basis or as part of multiple feature packages. All features are provided subject to availability; features may not be available with all CLASS services. Transmission levels may not be sufficient in all cases.

4.2.2 Description of Features

A. Caller ID/Block Caller ID

The Caller ID feature allows a customer to see a caller's name and number previewed on a display screen before the call is answered allowing a customer to prioritize and/or screen incoming calls. Caller ID records the name, number, date and time of each incoming call – including calls that aren't answered by the customer. Caller ID service requires the use of specialized CPE not provided by the company. It is the responsibility of the customer to provide necessary CPE.

B. Automatic Callback

The Automatic Callback feature allows a customer to automatically Callback the last number dialed. This is accomplished by the customer activating a code. The network periodically tests the busy/free status of the called line for up to 30 minutes until both lines are found free and then Callbacks the call from the customer.

4.2 CLASS SERVICES (Cont'd)

4.2.2 Description of Features (Cont'd)

B. Automatic Callback (Cont'd)

The Automatic Callback feature also allows customers, having reached a busy number, to dial a code before hanging up. Automatic Callback feature then continues to try the busy number for up to 30 minutes until it becomes free. Once the busy line is free the call is automatically called back and the customer is notified of the connected call via a distinctive ring.

The following types of calls cannot be Automatically Called back:

- Calls to 800 Service numbers
- Calls to 900 Service numbers
- Calls preceded by an interexchange carrier access code
- International Direct Distance Dialed calls
- Calls to Directory Assistance
- Calls to 911

C. Automatic Recall

The Automatic Recall stores the number of the most recent incoming call (including unanswered incoming calls) to a customer's number. This allows a customer to dial back any missed or unanswered telephone calls.

B. Call Pickup

This feature allows a user to answer any call within an associated preset pickup group. If more than one line in the pickup group has an unanswered incoming call, the call to be answered is selected by the switching system. Call Pickup answers a call that has been directed to another station within the same preset Call Pickup group.

C. Call Transfer – All Calls

E. Directed Call Pickup without Barge-In

This feature is identical to the Directed Call Pickup with Barge-In except, if the line being picked up has already been answered, the party dialing the pickup code is routed to reorder (i.e., fast busy) rather than permitted to barge in on the established connection and create a three-way call.

F. Distinctive Ringing

This feature enables a user to determine the source of an incoming call from a distinctive ring. The pattern is based on whether the call is from within the station group, external to the station group, forwarded from the attendant position, or from a station with the Call Waiting feature.

G. Distinctive Ringing/Call Waiting Tone (Centrex Only)

This feature applies a distinctive ringing or call waiting tone that enables a user to determine the source of an incoming call. The pattern is based on whether the call is from within the station group, external to the station group, forwarded or extended from the attendant position, or from a station within the Call Waiting feature.

4.3 CENTREX SERVICE (Cont'd)

4.3.2 Description of Features (Cont'd)

I. Circular Hunting

This feature (similar to regular hunting) is a line hunting arrangement that allows all lines in a multi-line hunt group (MLHG) to be tested for busy, regardless of the point of entry into the group. When a call is to a line in MLGH, a regular hunt is performed stating at the station associated with the dialed number. It continues to the last station in the MLHG, then proceeds to the first station in the group and continues to hunt sequentially through the remaining lines in the group. Busy tone is returned if the original called station is reached without finding a station that is idle.

J. Speed Calling (Centrex Only)

This feature allows a user to dial selected numbers using one and two digits. Up to either telephone numbers may be selected.

K. Terminal Group and Station Restriction (Centrex Only)

This feature defines a station's network access capability, either individually within a Centrex group, or for the group as a whole. It defines the Centrex group and what level of access a station will have; i.e. intragroup only, toll restriction, etc.

L. Series Completion

This feature is a form of hunting similar to the multiline hunt group hunting and the Call Forwarding Busy Line feature. It allows calls to be made to a busy directory number to be routed to another specified directory number. The series completion hunt begins with the originally dialed member of the series completion group, and searches for an idle directory number from the list of directory numbers.

<u>Call Forwarding – Busy</u> automatically reroutes an incoming call to a customer predesignated number when the called number is busy.

<u>Call Forwarding – Don't Answer</u> automatically reroutes an incoming call to a customer predesignated number when the called number does not answer within the number of rings programmed by the Company.

<u>Call Forwarding – Variable</u> allows the customer to choose to reroute the incoming calls to another specified telephone number. The customer must activate and deactivate this feature.

R. Call Waiting/Cancel Call Waiting

Call Waiting provides a tone signal to indicate to a customer already engaged in a telephone call that a second caller is attempting to dial in. it will also permit the customer to place the first call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting (CCW) allows a Call Waiting (CW) customer to disable CW for the duration of an outgoing telephone call. CCW is activated (i.e., CW is disabled) by dialing a special code prior to placing a call, and is automatically deactivated when the customer disconnects from the call.

4.13 REMOTE CALL FORWARDING SERVICE

Service Area: Where facilities are available, the service area is defined by the NPA-NXX Codes and Exchanges listed below.

Local Calling Area: Exchanges and zones included in the local calling area for the NXX designations are specified below. NXXs associated with each particular exchange or zone may be found in the directory listings directory published by the incumbent local exchange carrier in the Customer's exchange area.

4.13.1 General

Remote Call Forwarding (RCF) is a local exchange service that utilizes a telephone number and Electronic Central Office facilities by which all incoming calls to the RCF telephone number are forwarded automatically to the subscriber's central office line in the same exchange as the RCF number or in a different exchange or to an inward WATS (800 Service) access line.

4.13.2 Regulations

- A. Remote Call Forwarding service is offered in Electronic offices where facilities permit.
- B. RCF paths may be used singly, in groups, or as overflow paths for foreign exchange trunk groups. Only one forwarding number is permitted per group.
- C. Remote Call Forwarding is not offered where the terminating number is a coin telephone.
- D. Identification of the originating telephone number is not provided to the Remote Call Forwarding customer.
- E. Transmission may not be satisfactory on all calls.
- F. Remote Call Forwarding is not represented as suitable for the transmission of data.

4.13 REMOTE CALL FORWARDING SERVICE (Cont'd)

4.13.2 Regulations (Cont'd)

- G. Remote Call Forwarding is provided on condition that the customer subscribe to sufficient RCF paths and terminating facilities to adequately handle calls to the RCF customer without interfering with or impairing any other services offered by the Company.
- H. The minimum charge for the RCF Service is the monthly rate for one month plus the Service Connection Charge.
- I. Charges for the call to the Remote Call Forwarding directory number shall be paid by the calling party.
- J. Each RCF group is entitled to one alphabetical and one classified listing at no additional charge in the directory which serves the associated RCF central office. Overflow paths associated with foreign exchange trunk groups are not listed. All other listing regulations for business individual lines apply, except that no charge applies for non-published service in connection with RCF.

4.13.3 Rates and Charges

In addition to the rates specified in Section 10 of this tariff, the subscriber to Remote Call Forwarding is responsible for dial type (DDD) station-to-station local and toll charge applicable to calls transferred from the forwarding location to the terminating location. The charge applies for each call answered, including person-to-person and collect calls which are refused at the terminating location. For calls transferred within the same local calling area, the message rate schedule for business service in the RCF central office applies. In exchanges where only flat rate service is furnished, the charge for each local call transferred is a Rate Band 1 (A) charge. No allowance for local calls is included in the RCF monthly rate.

4.14 Integrated Services Digital Network (ISDN) Primary Rate Interface (PRI)

Integrated Services Digital Network (ISDN) is a set of transmission protocols that provides end-to-end digital connectivity and integration of voice, data and video, on a single Subscriber loop to support a wide variety of services via the public switched network. The Primary Rate Interface (PRI) consists of a 23B+D configurations with 23 64Kbps Bearer (B) digital channels and one 64 Kbps Data (D) digital channel. The B channels are designed for voice, data, image, and sound transmissions. B channels can support synchronous, asynchronous or isochronous services at rates up to 64Kbps. B channels can be aggregated for higher bandwidth applications. The D channel PRI provides the out of band signaling, call control and messaging.

PRI is provided through standard four wire DS-1 (1.5 Mbps) point to point, private line facilities that enables Subscriber control of the 24 individual channels. PRI supports 1+, 0+. 7 digit and 10 digit IntraLATA and InterLATA services, as well as 01+ and 011+ international calling. PRI allows Subscribers to direct InterLATA voice, data and video over the Public Switched Telephone Network to the pre-subscribed IXC carrier of their choice, as well as 10XXX casual dialing. PRI also allows access to Public Switched Network services, such as Two-Way, Incoming Only, Outgoing Only and DID

Multiple PRI interfaces can be combined to function as one group. Utilizing a Backup D Channel arrangement, Subscribers are able to link up 20 DS-1s together, providing a maximum of 479 64Kbps B Channels controlled by a single D (signaling) channel.

1) Description

The terms and conditions specified herein are applicable to ADSL Service and are in addition to other regulation as specified in this tariff.

The ADSL Term and Volume Plan (TVP) will allow customers discounted access rates based upon the volume and term commitment. Rates will be based upon the TVP selected by the customer.

Term plans of one (1) and three (3) years are available to all customers at applicable rates set forth in the tariff regardless of when the subscription is made for an ADSL Service TVP arrangement. The customer must designate on the order the type of payment plan selected.

 - 2) Rate Application

Upon expiration of a TVP period, the customer may choose a new TVP period, convert to month-to-month or terminate service. The month-to-month rates will be those that are in effect at the time of conversion. If the customer fails to make a choice by the end of the TVP period, the ADSL Service will continue billing at the existing term and volume commitment level rates and a new TVP period will begin based on the previously effective term and volume commitment. All terms and conditions, including Termination Liabilities, will apply to the new TVP period.

Conversion to a month-to-month or different TVP period will require the customer to submit a change order. Conversion of existing TVP service to a different TVP period will be allowed without application of any nonrecurring charges.

5) Annual Review

Each customer's TVP will be reviewed annually. The customer will be notified as to the status of the TVP if the inservice quality of ADSL Service falls below the current volume level. The volume level requirements will be met if the total number of in-service ADSL Services falls within the ranges specified on 16.6.(N)(2). Where the customer has less than the required quantity for a specified discount, charges will be applied based on the in-service volume.

If the total number of ADSL Services in service qualifies the customer for a different TVP rate, the customer will have the option of increasing the commitment quantity for the remainder of the plan.

6) TVP Conditions

After enrolling in the plan, the customer may delete or add ADSL Services rated at the specified term period/threshold level rate at any time during the plan. For example, if the customer subscribes to a 3 year TVP at 500-1500 ADSL Service threshold level, ADSL Services may be added at any time at the 3 year 500-1500 threshold rate level.

The payment will be calculated using the prorated ADSL Service aggregation quantity at the time of review. The customer may choose to increase the volume commitment within 30 days after enrollment to the TVP and continue the TVP arrangement or choose to be billed on a going forward basis under either a different TVP or under the month-to-month rates. 4.16 DIGITAL SUBSCRIBER LINE (xDSL) SERVICE (Cont'd)

4.16.2 High Bit Rate Digital Subscriber Line (HDSL) Service

High Bit Rate Digital Subscriber Line (HDSL) Service is a symmetrical access data technology service offered at a speed level of 768 Kbps, both upstream and downstream, over a single pair. Additionally, two (2) pair lines can be multiplexed together to achieve rates of 1.544 Mbps, equivalent to a T-1 Trunk.

4.16.3 Single Line Digital Subscriber Line (SDSL) Service

Single Line Digital Subscriber Line (SDSL) Service is an access data technology similar to HDSL that used only one (1) pair line. SDSL can achieve the same throughput as HDSL with half the lines, but at shorter distances – 10,000 feet compared to 12,000 feet for HDSL.

4.16.4 Very High Rate Digital Subscriber Line (VDSL) Service

Very High Rate Digital Subscriber Line (VDSL) Service is an access data technology used for the very shortest distances and can achieve speed levels of 13 Mbps under 4,000 feet and up to 52 Mbps at 1,000 feet. Each line connection provides access to the Wide Area Network (WAN) or Internet connection over a high–speed unbundled pair of copper lines.

4.16.5 Rate Adaptive Digital Subscriber Line (RADSL) Service

Rate Adaptive Digital Subscriber Line (RADSL) Service is a data transmission technology that supports both asymmetric and symmetric applications on a single pair and allows adaptive data rates.

4.16.6 ISDN Digital Subscriber Line (IDSL) Service

ISDN Digital Subscriber Line (IDSL) Service is an access data technology that uses ISDN technology to deliver symmetric transmission speeds of 128 Kbps on copper loops as long as 18,000 feet. IDSL works may be used with most ISDN customer equipment.

SECTION 5 - RESIDENTIAL NETWORK SWITCHED SERVICES

5.1 GENERAL

Residential Network Switched Services provide a residential customer with a connection to the Company's switching network which enables a customer to:

- A. place and receive calls from other stations on the public switched telephone network:
- B. access the Company's local calling service;
- C. access the Company's operators and business office for service related assistance; access toll-free telecommunications services such as 800 NPA; and access 911 service for emergency calling; and
- D. access the service of providers of interexchange service. A customer may presubscribe to such provider's service to originate calls on a direct dialed basis or to receive 800 service from such provider, or may access a provider on an ad hoc basis by dialing the provider's Carrier Identification Code (10XXX). At the time of initial subscription, the customer shall designate a Primary Interexchange Carrier (PIC) for intra-LATA and inter-LATA toll service. If a customer does not select an intra-LATA PIC, and does not request blocking of intra-LATA tolls calls, the Company shall be deemed to have been designated as the customer's intra-LATA PIC.

Description

ISDN is a single integrated digital telecommunications network architecture which provides for the simultaneous access, transmission and switching of voice data and image services via channelized transport facilities over a set of standard multipurpose user-network interfaces. PRI governs the connectivity between switching equipment (network or customer) and customer equipment and allows voice and data services, simultaneously while supporting circuit-switched and packet-switched connections.

The ISDN-PRI feature supports a 64 kb/s D-channel path between customer digital PBX equipment and the protocol handler in a PSU of the 5ESS (R) switch. The path is made up of a dedicated time slot between channel 24 on a digital facility interface (DFI) and the assigned protocol handler. This feature also provides the administration software for up to 23 B-channels associated with a D-channel in the same T1 facility (1.544 Mb/s for domestic). This interface supports both ISDN PBXs and host computers.

6.2.4 Centrex Service

A. Description

Centrex Service is a multi-station system offered to the business customer with 4 or more lines or trunks. It consists of digital switching equipment in the Company's switches connected to station lines on the customer's premises. Centrex Service enables station lines on the customer's premises. Centrex Service enables the customer to originate and receive calls within its system at no additional charge. Local measured usage charges apply to all other local calls.

Centrex Service is offered on a contracted basis with four terms: 24, 36, 60, and 84 months. Thirty days prior to the expiration of the contract term, the subscriber may cancel service or renew for a new term commitment. If the subscriber does not cancel or renew the service, service will continue on a month to month basis at the monthly rate associated with the twenty-four month term plan.

Each Centrex Station Line has the following characteristics:

Terminal Interface: 2-Wire or 4-Wire as required for the provision

of the service

Several of the services offered above are available at reduced prices if the Customer agrees at the time the order is placed to continued service for a specified period of time ("term"). If the Customer terminates service prior to the end of the term, in part or in whole, then termination charges will apply. If the customer disconnects service prior to the fulfillment of the term plan contracted, then a termination liability will be due to Company from Customer. The termination liability charge will be the difference between the monthly and the monthly rate for the selected commitment period multiplied by the actual number of months the plan has been in effect. The monthly rates used for this calculation will be those in effect at the time the service is disconnected.

7.6 TELECOMMUNICATIONS RELAY SERVICE

7.6.1 General

The Company will provide access to a telephone relay center for Relay Service. The service permits telephone communications between hearing and/or speech impaired individuals who must use a Telecommunications Device for the Deaf (TDD) or a Teletypewriter (TTY) and individuals with normal hearing and speech. The Relay Service can be reached by dialing an 800 number. Specific 800 numbers have been designated for both impaired and non-impaired customers to use.

7.6.2 Regulations

- A. Only intrastate calls can be completed using the Kentucky Telecommunications Relay Service under the terms and conditions of this tariff.
- B. Charges for calls placed through the Relay Service will be billed as if direct distance dialed (DDD) from the point of origination to the point of termination. The actual routing of the call does not affect billing.
- C. Calls through the Relay Service may be billed to a third number only if that number is within the State of Kentucky. Calls may also be billed to calling cards issued by the Company or other carriers who may choose to participate in this service.
- D. The following calls may not be placed through the Relay Service:
 - 1) calls to informational recordings and group bridging service;
 - 2) calls to time or weather recorded messages;
 - 3) station sent paid calls from coin telephones; and
 - 4) operator-handled conference service and other teleconference calls.

7.6.3 Liability

The Company contracts with an outside provider for the provision of this service. The outside provider has complete control over the provision of the service except for the facilities provided directly by the Company. In addition to other provisions of this Tariff dealing with liability, in the absence of gross negligence or willful misconduct on the part of the Company, the Company shall not be liable for and the customer, by using the service, agrees to release, defend, and hold harmless for all damages, whether direct, incidental or consequential, whether suffered, made, instituted, or asserted by the customer, or by any other person, for any loss or destruction of any property whatsoever, whether covered by the customer or others, or for any personal injury or death of, any person. Not withstanding any provision to the contrary, in no event shall the Company be liable for any special, incidental, consequential, exemplary, or punitive damages of any nature whatsoever.

7.6.4 Telecommunications Relay Services Surcharge

American Telephone Company LLC will impose a supplemental charge of \$0.04 per month per line for all subscriber lines.

7.6.5 Kentucky Lifeline Support

American Telephone Company LLC will also impose a charge of \$0.08 per month per line for all subscriber lines, for the Kentucky Lifeline Support Program.

7.7 SPECIAL CREDIT CARD FOR BLIND AND DISABLED PERSONS

7.7.1 General

Persons who are blind or whose disability causes difficulty with hand and finger coordination and use of a telephone qualify for a Special Credit Card. The card may be used from any telephone within the Company's territory to place calls within and outside the State of Kentucky at a special rate or to place calls from a telephone outside of the Company's territory, but within the State of Kentucky at rates applicable to the territory from which the call is made.

7.7.2 Rates

Within the Company's Territory:

Station-to-station toll calls placed with operator assistance will be billed at the lower rate normally applicable to calls placed without operator assistance. Local calls cannot be charged to the card. Person-to-person calls charged to the card will be billed at the higher operator handled rate.

Outside the Company's Territory, but within Kentucky:

All rates, charges, billing and restriction in effect in the territory from which the call is made will apply.

7.7.3 Qualification

The following criteria will be used to determine eligibility for the Special Credit Card:

- A. "Legally Blind" those whose visual acuity is 20/200 or less in the better eye with correcting glasses or whose widest diameter or visual field subtends an angular distance no greater than 20 degrees.
- B. "Physically Handicapped" those who are certified by competent authority as unable to read or use ordinary printed materials as a result of physical limitations.

C. Persons whose disabling condition causes difficulty with hand and finger coordination and utilization of a coin or non-coin telephone. Acceptable certifications are those made by a licensed physician ophthalmologist or optometrist.

7.7.4Billing Authorization

Responsibility for payment of charges may be handled in one of two ways:

- A. The handicapped person (the applicant) may accept responsibility for payment of his or her own bill. In this case, the applicant must be 18 years of age or older and must reside within the Company's service territory, but he or she does not need to have other service from the Company.
- B. Another party may agree to accept responsibility for payment of charges incurred through use of at the Special Credit Card by the applicant. When this option is chosen, the person accepting this responsibility must be 18 years of age or older, but does not need to reside within the Company's service territory.

In either case, the applicant is the only authorized user of the Special Credit Card. If the person accepting payment responsibility has service within the Company's service territory, charges will be billed on a regular monthly bill; otherwise a separate bill will be sent.

SECTION 8 - SPECIAL ARRANGEMENTS

8.1 SPECIAL CONSTRUCTION

8.1.1 Basis for Charges

Basis for Charges where the Company furnishes a facility or service for which a rate or charge is not specified in the Company's tariffs, charges will be based on the costs incurred by the Company (including return) and may include:

- a. nonrecurring charges;
- b. recurring charges;
- c. termination liabilities; or
- d. combinations of a, b, and c.

8.1.2 Basis for Cost Computation

The costs referred to in 8.1.1 preceding may include one or more of the following items to the extent they are applicable:

- A. Costs to install the facilities to be provided including estimated costs for the rearrangements of existing facilities. These costs include:
 - 1) equipment and materials provided or used;
 - 2) engineering, labor, and supervision;
 - 3) transportation; and
 - 4) rights of way and/or any required easements
- B. Costs of maintenance.
- C. Depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage.

- 8.1.2 Basis for Cost Computation (Cont'd)
 - D. Administration, taxes, and uncollectible revenue on the basis of reasonable average cost for these items.
 - E. License preparation, processing, and related fees.
 - F. Tariff preparation, processing, and related fees.
 - G. Any other identifiable costs related to the facilities provided; or
 - H. An amount for return and contingencies.

8.1.3 Termination Liability

To the extent that there is no other requirement for use by the Company, a termination liability may apply for facilities specially constructed at the request of the customer.

A. The period on which the termination liability is based is the estimated service life of the facilities provided.

Issued: February 5, 2010

SECTION 8 - SPECIAL ARRANGEMENTS (Cont'd)

- 8.1 SPECIAL CONSTRUCTION (Cont'd)
 - 8.1.3 Termination Liability (Cont'd)
 - B. The amount of the maximum termination liability is equal to the estimated amounts (including return) for:
 - 1) Costs to install the facilities to be provided including estimated costs for the rearrangements of existing facilities. These costs include:
 - a. equipment and materials provided or used;
 - b. engineering, labor, and supervision;
 - c. transportation; and
 - d. rights of way and/or any required easements;
 - 2) license preparation, processing, and related fees;
 - 3) tariff preparation, processing, and related fees;
 - 4) cost of removal and restoration, where appropriate; and
 - 5) any other identifiable costs related to the specially constructed or rearranged facilities.
 - C. The termination liability method for calculating the unpaid balance of a term obligation is obtained by multiplying the sum of the amounts determined as set forth in Section 8.1.3 B. preceding, by a factor related to the unexpired period of liability and the discount rate for return and contingencies. The amount determined in Section 8.1.3 B. preceding shall be adjusted to reflect the predetermined estimated net salvage, including any reuse of the facilities provided. This amount shall be adjusted to reflect applicable taxes.

NON-ROUTINE INSTALLATION AND/OR MAINTENANCE 8.2

At the customer's request, installation and/or maintenance may be performed outside the Company's regular business hours or (in the Company's sole discretion and subject to any conditions it may impose) in hazardous locations. In such cases, charges based on the cost of labor, material, and other costs incurred or charged to the Company will apply. If installation is started during regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

8.3 INDIVIDUAL CASE BASIS (ICB) ARRANGEMENTS

Rates for ICB arrangements will be developed on a case-by-case basis in response to a bona fide request from a customer or prospective customer for service which vary from the tariffed arrangements. Rates quoted in response to such requests may be different for tariffed service than those specified for such service in this Tariff. ICB rates will be offered to customers in writing and will be made available to similarly situated customers.

SECTION 9 - DIRECTORY

9.1 ALPHABETICAL DIRECTORY

9.1.1 Main Listings

- A. The Company contracts with an outside provider, which may be the Incumbent Local Exchange Carrier, for directory listings. All references to the directory of the Company will mean the directory published by the outside provider.
- B. The term "listing" refers to the information in light face type in the alphabetical directory and the Directory Assistance Records of the Company.
- C. Listings provided without charge are as follows:
 - 1) One listing for each individual line. Where individual lines are grouped for incoming service, only one listing will be provided for each such group.
 - 2) One listing for each PBX or interconnecting system.
- D. The name listed in the directory has no bearing on who is responsible for payment or the account associated with the number being listed.

9.1.3 Types of Listings (Cont'd)

A. Indented Listings

An indented listing is indented under a standard listing or under a caption, and may not include more than a designation, address, and telephone number. A caption consists of a name, and may include a designation, but not a telephone number. An address may be included only if all of the services listed under the caption are located at the same address. When the same designation is appropriate for two or more indented listings, it may be shown as a sub-caption. Indented listings are permissible when a Customer is entitled to two or more listings of the same name with different addresses or different telephone numbers.

B. Duplicate Listings

Any listing may be duplicated in a different directory (where offered) or under a separate geographical heading in the same directory. Such listing may be duplicated in indented form.

C. Reference Listing

A Customer with a listing in a different geographic heading may have an indented listing in reference form ("See") in lieu of a duplicate listing.

D. Cross Reference Listing

A Customer may have a related listing in the same alphabetic group listing when required for identification of the listed party and not designated for advertising purposes.

9.1.4. Non-Published Service

A. General

The telephone numbers of non-published service are not listed in either the Company's alphabetical directory or Directory Assistance records available to the general public. However, where a government agency subscribes to Universal Emergency Telephone Number Service (911) or Enhanced Universal Emergency Telephone Service (E911), the telephone number, name, and address of a Customer with non-published service will be displayed when the Customer dials 911 and is connected to a Public Safety Answering Point (PSAP) for dispatch of emergency service. In addition, the Company will provide a Customer's non-published number when a law enforcement agency requests it in writing.

B. Regulations

- 1) Except as otherwise provided in this paragraph, incoming calls to non-published service will be completed only when the calling party places the call by number. In claims of emergencies involving life and death, the operator will call the non-published number and request permission to make an immediate connection to the calling party. If the connection is refused, the calling party will be advised.
- 2) The acceptance by the Company of the Customer's request to refrain from publishing his or her telephone number in the Directory does not create any relationship or obligation, direct or indirect, to any person other than the Customer.

9.3 DIRECTORY INFORMATION REQUESTS

Requests for directory information are provided by dialing Directory Assistance. Information will not be issued by the Company outside of normal directory assistance procedures unless the request is made by an emergency agency. Directory information will only be provided to emergency agencies after a formal request is presented to the Company in writing. The requesting agency must agree to pay for the costs incurred by the Company in providing the information, and must certify that the information will be used only for the purpose of providing its services to the community.

9.4 LIABILITY OF THE COMPANY FOR ERRORS

9.4.1 General

In the absence of gross negligence or willful misconduct, and except for the allowances stated elsewhere in this Tariff, no liability for any damage of any nature whatsoever arising from errors in directory listings or errors in listings obtainable from the Directory Assistance operator, including errors in reporting thereof, shall attach to the Company. A listing is considered in error only when it shows the Customer on the wrong street, or in the wrong community. The Customer must notify the Company of an error.

9.4.2 Allowance for Errors

An allowance for errors in published directory listings or for errors in listings obtainable from the Directory Assistance operator shall be given as follows:

9.4 LIABILITY OF THE COMPANY FOR ERRORS (Cont'd)

9.4.2 Allowance for Errors (Cont'd)

Free Listings A.

For Free or non-charge published directory listings, credit shall be given at the rate of two times the monthly rate for an additional or charge listing affected, for each month of the life of the directory or the charge period during which the error occurs. The Company may issue the credit in a lump sum if it chooses to do so.

Charge Listings B.

For each additional or charge published directory listing, credit shall be given at the monthly tariff rate for each individual line affected, for each month of the life of the directory or the charge period during which the error occurs.

C. Operator Records

For free or charge listings obtainable from records used by the Directory Assistance operator, upon notification to the Company of the error in such records by the Customer, the Company shall be allowed a period of three business days to make the correction. If the correction is not made in that time for reasons within the control of the Company, credit shall be given at the rate of two-thirtieths (2/30) of the basic monthly rate for the line or lines in question for each day thereafter that the records remain uncorrected.

The total amount of any credit shall not exceed, on a monthly basis, the total of the charges for each listing plus the basic monthly rate for the line(s) in question. No allowance will be provided for errors caused by other carriers or operator service providers.
